

# Classroom Calendar

Notice the multiple colors on the page. Each color represents a category. This district put some thought into what each category color represented ahead of time and made the categories mean the same thing across the district. This consistency will benefit all teachers, parents, and students. Also, notice that some of the events have a CD icon with an arrow next to them. The arrow indicates that the information is being shared from another calendar. You cannot edit this information, you can only view it.

## SchoolCenter Training District Calendar
